

## BUILDERS MARK TEMPO FROM WOLF HOME PRODUCTS

### The Budget-Friendly Choice

Whether you're creating a large decorative space or building a small galley kitchen, when you choose Builders Mark Tempo cabinets your imagination won't be limited — even if your budget is.

### Exceptional Value

Builders Mark Tempo cabinets feature quality wood doors and face frames and come with 1/2" shelves, 6-way adjustable, fully concealed, self-closing hinges and an easy-clean interior. Plus, you can choose from a variety of smart storage solutions as well as functional and decorative accessories to make any size project your own.

### Buy with Confidence

You can be confident when buying Builders Mark Tempo cabinets. In addition to certifications from the Kitchen Cabinet Manufacturers Association (KCMA), Builders Mark Tempo comes with a 2-year limited warranty.

## PRODUCT CHARACTERISTICS

### Natural Beauty of Wood

Wood is a natural product with variations in grain, texture and color. As a result of natural conditions, some species will develop characteristics such as burls, pecks, pin burls, shakes, split knots and mineral streaks to name a few. In some instances, even the color will vary greatly within a single piece of wood or cabinet component. A certain amount of variations is allowed and, in fact, is desirable. Doors with these types of characteristics are not to be considered defective. Natural and light finishes will not cover any naturally occurring variation. In addition, all wood will age overtime deepening or mellowing its tone. These characteristics are not to be misinterpreted as defects. Wood is a product of nature- and as such will display natural characteristics and variances that are unique to each and every cut. These characteristics are an integral part of the charm and beauty of real wood.

### Finish Process

1. All surfaces are machine-sanded.
2. Dust particles are removed before entering each spray machine.
3. Product enters an automated finish system where solvent-based pigment stain is applied.
4. Product is sealed and put through a pre-cure drying process.
5. Complete cure is done with slow bake process.
6. All edges of parts are hand-sanded before being put in a brush-sanding machine.
7. Final topcoat is applied and put through a pre-cure process followed by slow bake for final, thorough curing.
8. Clear finishes use a catalyzed varnish, and paint finishes use a post-catalyzed lacquer.
9. Products are inspected for defects, cleanliness and smoothness.
10. The front side of the products gets a stain coat, a sealer coat and final top coat. The backs of drawer fronts and doors get a stain coat and a sealer coat.
