

# HardStop™ Spray Adhesive

*Save on installation time and labor cost!*

- Spray glue to drywall & hang HardStop™ Panels by Formica Corporation in 1-2 minutes
- Adhered panels are repositionable within one minute to allow for proper alignment
- Speed of installation is about 75% faster than trowel products
- Less cleanup than trowel adhesive and easier to use
- Low VOC, California compliant and Class A fire rating on drywall panel
- Convenient spray adhesive sizes
- Cylinder for full walls/larger jobs
- Aerosols for smaller jobs
- Use HardStop™ Re-activator aerosol along with the HardStop™ Spray Adhesive to re-activate adhesive when needed and for easy cleanup of any overspray on trim or HardStop panels.
- All spray equipment is reusable
- HardStop™ Spray Adhesive can be used on **DRYWALL APPLICATIONS ONLY**
- Refer to the HardStop™ Spray Adhesive Installation Video on [www.formica.com](http://www.formica.com) for proper installation instructions
